

# Volo™ Movable Wall

Trendway

## Speak Volumes with Volo.

What's your perfect space? A quiet, private office clad in wood veneer? A creative hotspot in bold colors, where you freely sketch ideas floor-to-ceiling? Maybe it's a simple, practical shared place where different tasks and needs are supported in a beautiful environment. Whatever your vision, you'll speak volumes with Volo and bring your space to life with amazing speed, ease and practicality.

## Appreciate Volo.

You'll love how Volo Walls perform, especially when it comes to speed and convenience. Remarkably quick to design, install and reconfigure, Volo Walls reflect Trendway's 45 years of architectural wall experience and exceptional manufacturing capabilities. And with Volo Walls, you'll appreciate the fastest lead times in the industry.

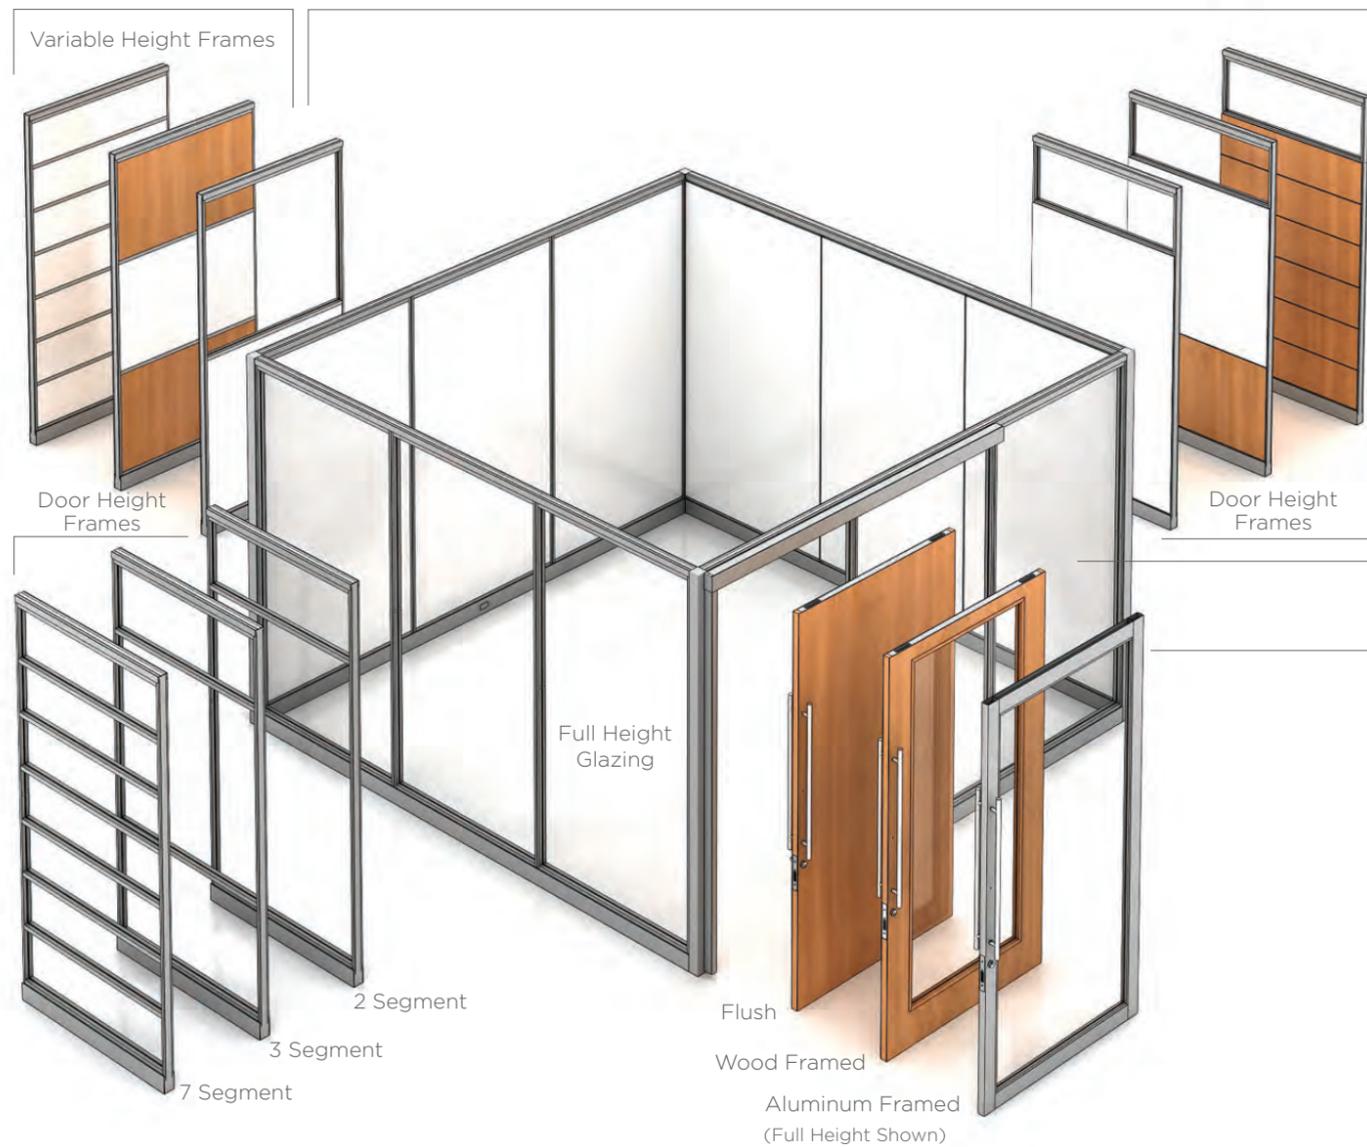

## Personalize Volo.

Volo Walls afford designers a creative range of surface material options for varying degrees of privacy and function. Choose from:

- veneer
- tempered and decorative glazing
- tackable/fabric
- writable/magnetic backpainted glass in a choice of colors
- laminate and faux veneer

Volo can create the aesthetic of fine custom millwork, or the simple functionality of drywall construction. Plus, the versatile panel sizing conforms to any space dimension requirements. Personalizing Volo Walls couldn't be easier.

INSERT TILES create an extra-slim profile, revealing structural frame elements for a contemporary aesthetic. Solid inserts combine with clear or decorative glazed, backpainted glass, tackable and marker board inserts for almost unlimited functional and design flexibility.

Frame elements are available in any of Trendway's standard Systems paint colors or Anodized Aluminum.

The DOOR HEIGHT SEGMENT FRAME aligns horizontally with a partial height door frame.

Beautiful solid OUTSERT TILES can blend with functional framed Insert Tiles for maximum flexibility.

Functional segmentation simplifies design and allows writable tiles, tackable tiles, glazing and other optional features wherever they serve you best.

Visual interest can be easily achieved with aesthetic segmentation — allowing up to 7 segments of identical or varied materials.

PANEL FRAMES can be floor-to-ceiling monolithic or segmented. Segments can be specified from 8" to 120" in height in 1/2" increments, and 12" to 48" wide, in 1/8" increments.

GLAZED PANELS provide clear, tinted, backpainted, frosted and decorative options. Choose privacy, visibility, pattern, color or writeability - Volo has it all.

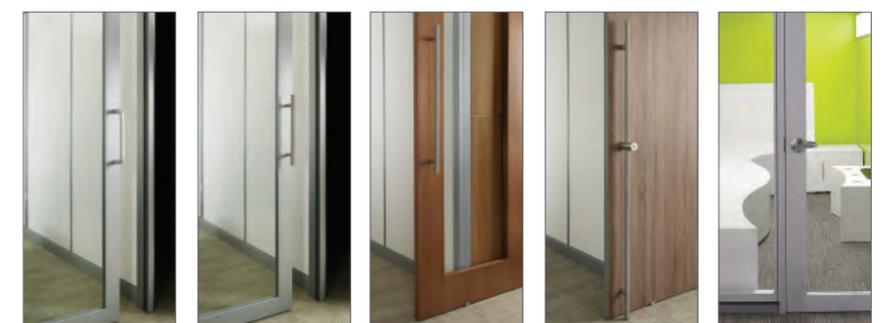

DOORS are available in sliding and swing style, full height or partial height models. Partial height (7', 8' or 9') doors, swing or sliding style, have a solid or glazed transom above. Choose flush, wood framed or aluminum framed style.

#### DOORS

Sliding Door Frames offered in 2" or 4" width, or 2" with a 4" base. Swing Door Frames offered in 4" width and 4" base.

#### PULL OPTIONS

12" D Pull, 17" Post Pull, 36" Post Pull, 72" Ladder Pull, Lever Set for Swing Door only

#### WALL START OPTIONS

The Adjustable Wall Start matches frame elements and provides flexibility to cleanly attach to wall conditions.

Reveal Wall Start creates a subtle, recessed wall connection.

#### BASE OPTIONS

2" Reveal Base creates a subtle recessed transition to the floor.

The 4" Traditional Base gives a framed finish to the panel.

8-wire 4-circuit power is available in the 6" Traditional Base.

#### CROWN OPTIONS

Reveal Crown diminishes the visibility of attachment elements.

Traditional Crown stands slightly proud of the wall panel.

#### TILE OPTIONS

Inserts offer many decorative and functional options — all framed within the wall tile.

Outserts bring a uniform look to surface materials and eliminate the framing effect.

#### GLAZED PANELS

Volor offers clear, super-clear, frost, backpainted color, writable and magnetic glazing options.

#### ACOUSTICS

Sound-deadening door inserts provide acoustic privacy.

#### ELECTRICAL

Modular Power Spacers distribute power vertically for access at 6", 12" and 42" heights.

Power is distributed and accessed horizontally with the 6" base option.

## Value Volo.

Volo Walls look like permanent architecture, yet they're ready to evolve with your changing needs. Integrating effortlessly with your interior architecture, Volo Walls can look and feel like custom millwork one day — and be reconfigured the next! The repositionable, unitized wall panels can be used and re-used to create spaces that respond to your changing requirements, year after year — without construction headaches, foregoing the need for costly trades, reducing the downtime of your people — and having a minimal impact to building infrastructure. That's value.
