INTERLINKS - TLC
CREATIVE SOLUTIONS

THE INDUSTRY LEADER

LINKS CREATIVE SOLUTIONS

Our design staff expertly utilizes the 20-20 Giza Studio program to design, organize, and personalize your office with use of the Links Library containing over 4,000 sku's.

Giza studio uses a combination of scalable 2D or 3D drawings while generating expert reports for formal presentations. Our extensive service will increase the accuracy of your project.

Links Contract Furniture Inc. is a manufacturer of high quality office furniture with experience in creating high performance workplace environments that have inspired, challenged, and adapted to the changing needs of its consumers since 1995. At Links Contract Furniture we embrace research and design - bringing innovative ideas, products, and services to the North American office furniture market.

Ami Spector
President

ANSI/BIFMA X5.5-2008 ISO 9001:2008 Certified

Links Contract Furniture Values

We value our customers. We are responsible to the consumers who use our products. Therefore, in meeting the needs of our consumers we are committed to delivering the upmost quality products and providing business excellence as the base of everything we do. We promise to listen closely to the needs of our consumers and strive to continuously exceed expectations.

At Links we recognize our members. An organization is only as effective as it's people. Therefore, employee development is an essential element of company growth. As an organization we believe in the ability of our people and stand behind them in achieving their greatest potential.

We value integrity. We believe in developing integrity in the deepest layers of our organization and not just at its surface. We strive to build mutually beneficial relationships with our customers, dealers, and suppliers as a foundation for growth.

We value continuous learning. We believe in growth through experience. A constant evolution in the way we think and act brings about new knowledge and skills that allow us to develop improved processes, advanced designs, and reduce our environmental impact.

We value our world. We work to cultivate the world in which we live in through investing in our people and the pursuit of sustainable development. Focusing our value chain on the challenges of sustainable development has allowed us to find new ways to minimize our impact on the environment.

DESKING SYSTEMS

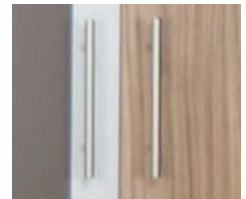

CREATE A WORKSPACE
TAILORED TO YOUR
ENVIRONMENT.

Wall Mounted Hutch

Cushioned Pedestal

Silver Handles with
Glazed Insert Framed
Doors

The LINKS current profile is designed for open office applications and a shared workspace. This is ideal for the creation of unique design areas personalized to your style. The Links Made-To-Measure option is collaboration made easy.

PS 730

Featured in Nutmeg (NM)

Cushioned textile in Mod Snow (MD90).

DESKING SYSTEMS

LINKS LAMINATE COLLECTION CAN CREATE UP TO 225 DIFFERENT COLOR COMBINATIONS. AVAILABLE WITH OPTIONAL BLACK OR ALUMINUM POSTS AND FRAMES, NUMEROUS TEXTILES FOR TACKABLE PRIVACY PANELS PLUS NUMEROUS HANDLE OPTIONS.

Creativity, organization and ample storage create an efficient work environment. This featured U-Grouping offers privacy, plenty of workspace and storage with the overhead hutch, a mobile box/box/file pedestal, an optional three drawer lateral with locking door storage cabinet, a paper manager and an optional 29" high corner bookcase.

PS 315

Featured in True White (TW) over Chocolate Walnut (CW) with tackboard inserts in Expo Zest (EX85).

Curved Keyboard Corner Unit

Overhead Post Mounted Hutch

Crystal Glazed Privacy Panels

Paper Manager

DESKING SYSTEMS

THE FEATURED LINKS WORKSTATIONS INCORPORATE THE COMPATIBLE LINKS POST MOUNTED PRIVACY PANELS, WITH MULTIFUNCTIONAL USE OF TACK BOARDS, FOR A LEVEL OF PRIVACY FROM 6" TO 36" HIGH.

PS 350

Featured in True White (TW) over Chocolate Walnut (CW) with tackboard inserts in Mod Ice Blue (MD30).

LINKS designed a work system which combines contemporary design and ergonomics, offered in a magnificent selection of beautiful finishes and textiles to enhance every workspace environment.

Glazed partitions available in two finishes provide partial privacy while allowing access to natural light. Tackable fabric partition tiles separate workstations in addition to providing privacy.

The LINKS professional design team is available to assist with your space planning requirements.

PS 715

Featured in True White (TW) over Chocolate Walnut (CW) with tackboard inserts in Expo Sprout (EX45).

DESKING SYSTEMS

THE SIGNATURE CREATION OF LINKS WITH THE FLEXIBILITY OF THE INTER-LINKS SYSTEM ALLOWS YOU TO CREATE INNOVATIVE WORK STATIONS TO MEET THE REQUIREMENTS FOR A MULTITUDE OF WORK ENVIRONMENTS.

GLAZED PARTITIONS, AVAILABLE IN TWO FINISHES. PROVIDE PRIVACY WHILE ALLOWING FOR ACCESS TO NATURAL LIGHT.

DESKING SYSTEMS

THE GOAL OF SEAMLESS INTERACTION WITHIN A WORKING ENVIRONMENT IS MET WITH LINKS CONTRACT MODULAR DESKING SYSTEMS.

Elevate aesthetic and functionality and facilitate a team of individuals to work within close proximity, while maintaining a workspace that can be individualized and productive.

PS 350 (x2)

PAK CABLE

ELECTRICAL WIRE SYSTEM

Pre-wired electrical system part of Links Furniture System

Let our team assist you with your electrical requirements, as well as, provide 2D & 3D drawings from our Design Department.

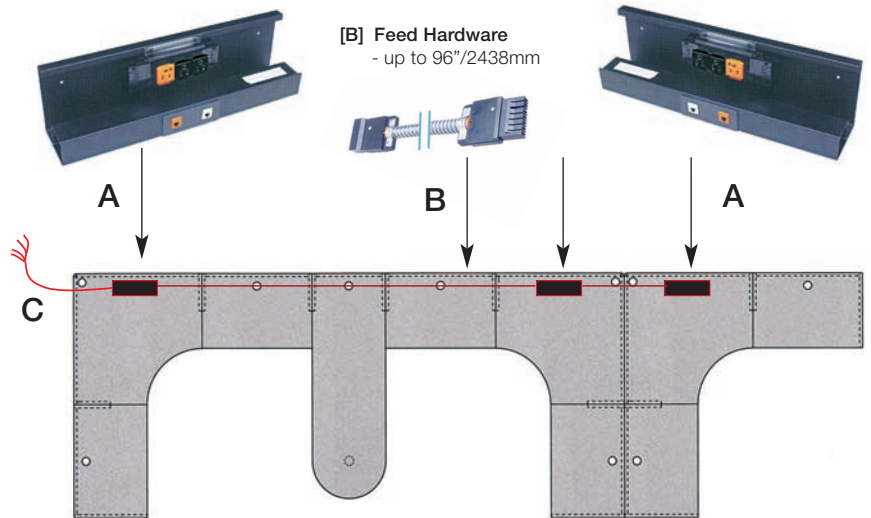

Economical power in a compact, easy to install unit.

[C] Ceiling / Base Feed Hardware
Used to introduce power to the electrical system

[A] J Channel Assembly Shown with optional RJ11 / RJ45 Communication Connectors

FEATURES

The optional pre-wired electrical system is offered by Links Contract Furniture and consists of the following features:

- connect any combination of standard equipment such as calculators, task lights, RPC retractable power centers, business machines and computer equipment from one assembly.
- shielded isolated circuit provides a barrier against electromagnetic interference.
- multi-station capabilities with interconnecting cable and large volume snap-in voice/data communication connectors (RJ11 / RJ45).
- specially designed metal flex cables and heavy gauge steel wire management.

ELECTRICAL WIRE SYSTEM

designed for today's electrical and voice communication applications

POWER DISTRIBUTION COMPONENTS

J Channel

Heavy gauge steel wire management. Large volume snap-in voice /data section for Communication Connectors (RJ11/RJ45). Will accommodate up to four communication connectors.

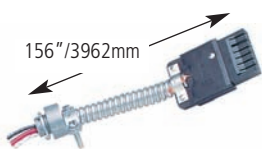

Power Module

Multi-circuit which allows for multi station use with interconnecting cable. Snap-in receptacles permit an assortment of circuit designations. Used when isolated ground receptacles are required for computer use.

Base Feed Hardware (BFH)

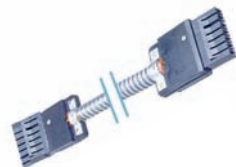

This is the most common solution to wiring the Links PAK-7 System to the building. It brings power to all 3 circuits in the module. The BFH is wired to the building supply at floor level by a licensed electrician. It gives power to the receptacles and the BFH comes in six foot lengths and is constructed by specially designed flexible conduit enclosure.

Ceiling Feed Hardware (CFH)

Used to introduce power to the electrical system and energize the first power module from the ceiling electrical source through a power pole or wall box where local codes permit. It gives power to the receptacles and the CFH comes in 13 foot lengths and is constructed by a flexible conduit enclosure.

METAL FLEX CABLES

Metal Flex Cable: Female Both Ends

Connects from power module to power module.
Lengths available: 24"/610mm, 36"/914mm, 48"/1219mm, 60"/1524mm, 72"/1829mm, 84"/2137mm, 96"/2438mm.

Metal Flex Cable: Female End / Male End

Used in directional systems as an extension cable or pass through from female cable to power module.
Lengths available: 24"/610mm, 36"/914mm, 48"/1219mm, 60"/1524mm, 72"/1829mm, 84"/2137mm, 96"/2438mm.

SIMPLEX RECEPTACLES

Circuit 1

Circuit 2

Circuit 3
Isolated Ground

Simple Removal
Tool

SPECIFICATIONS FOR ELECTRICAL SYSTEM

The pre-wired electrical system which is considered part of Links Furniture System will consist of the following:

The three circuit, 7-wire system offers two standard circuits using a common neutral and ground, and the third circuit which is an isolated circuit, having a separate neutral and an isolated ground, plus a shielded metallic barrier against Electromagnetic interference (EMI).

The power block shall have three simplex receptacles, and are mechanically interchangeable to permit the use of any combination of standard equipment such as calculators, task lights, Links RPC retractable power centers and business machines other than computer equipment.

The removal of the simplex receptacle is accomplished by the use of a special tool which restricts the modification of the system to authorized personnel only. Simplex receptacles are coded as Circuit #1 is I.D. with the numeral 1 on the simplex receptacle which shares a common neutral and ground with circuit #2. Circuit #2 is I.D. with the numeral 2 on the simplex receptacle which is on the same neutral and ground as circuit #1.

The isolated circuit #3 is a dedicated circuit that has a separate neutral and isolated ground not shared by the other two circuits. The simplex receptacle is identified with "IG" on a solid NEMA orange color. This circuit is also shielded from Circuits #1 and #2 to eliminate (EMI). The simplex "IG" should be reserved for applications requiring a dedicated circuit such as computer equipment.

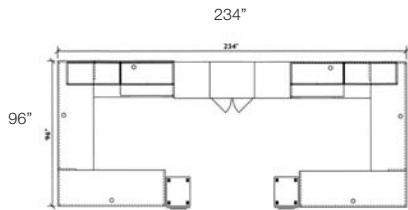

The electrical system shall bear the recognition symbol issued by Underwriter's Laboratories, Inc. and Canadian Standards Association and shall be constructed in accordance with the latest issue of the National Electric Code set by the Power Commission in your area.

Preserving the Environment from Design to Distribution

GREEN PLAN - MISSION STATEMENT

At Links Contract Furniture, our Environmental Management has worked diligently for many years on waste reduction programs.

WHAT WE ARE CURRENTLY RECYCLING:

Wood Scrap	96%
Cardboard	96%
Fine Paper	96%
Steel	96%

The environment is an issue taken most seriously. We demand it from ourselves and from our suppliers. Our objective is to be "My Earth-Friendly", and to contribute to a "Green Future" by what we can accomplish today. The ultimate goal is to eliminate waste materials resulting from manufacturing, production and office operations.

Reducing the amount of packaging materials used, begins with Links Contract Furniture's packaging experts who ensure safe delivery of furniture and use the minimum amount of packaging material necessary. The highest possible percentage of recycled and recyclable material is used in our package materials.

WASTE REDUCTION PLAN

- reduce disposable packaging,
- use packaging materials that are recyclable
- recycle solvents used in the manufacturing process.
- prevent, reduce, or eliminate manufacturing related emissions, know as volatile organic compounds: these chemicals are found in many paints, adhesives and cleaning solvents.
- work with suppliers worldwide to identify additional opportunities for implementing reusable packaging programs.
- extend life cycle by designing furniture to provide many years of service.

ANSI/BIFMA X5.5-2008 ISO 9001:2008 Certified

PRESERVING THE ENVIRONMENT

LINKS CONTRACT FURNITURE INC. CURRENTLY RECYCLES 96% OF THE WASTE MATERIALS IT GENERATES EACH YEAR.

WE ARE CONTINUOUSLY LOOKING FOR NEW WAYS TO REDUCE, REUSE, AND RECYCLE WASTE.

EVERY YEAR LINKS CONTRACT FURNITURE ADOPT NEW TECHNOLOGIES THAT WILL DIVERT MORE WASTE AWAY FROM LANDFILLS AND TOWARD USEFUL APPLICATIONS.

ISO 9001:2008 Certified.

Quality Office Furniture. Products meet or exceed ANSI/BIFMA x 5.5-2008 Quality Standards.

While every effort was made to ensure the accuracy of information contained in this Pricing - Specification Guide at the time of publication, we cannot accept responsibility for inaccuracies resulting from printing errors or omissions.
