

CAN YOUR WORKSPACE FLEX?

Rectangle and Trapezoid Tops on Shared Spider Leg | Pure White.

heartwood.ca

The modern office is an environment which must meet the demands of our dynamic, fast paced work life.

New methods of communicating allow a level of interaction never before seen in the work place and one that holds new challenges for furniture within these hyper-offices.

The demand for adaptable, versatile furniture has never been greater.

Whether it's a relaxed social gathering or an intense corporate meeting, FLEX is on hand - designed to adapt to any task.

BORED OF YOUR BOARD ROOM?

FLEX system of modular tables provides an affordable and versatile solution to meetings, conferences, training and academic applications.

Freestanding tables can simply be repositioned within minutes to deliver a fast and practical surface solution.

No fuss, all FLEX

Board room layout using Wave and Half Moon Tops with Freestanding Tee Bases | Grey Matrix.

Academic application with Wave and Half Moon Tops on Freestanding Tee Base legs | Grey Matrix

FLEX = Freedom; the freedom to build as many layouts as you can imagine.

By using an array of work surface options, combined with either independent or shared legs, you can configure the components in many different ways. Free at last to create your perfect 'surface solution'.

From boardroom to seminar, to group huddle and back again - as FLEXible as you need it!

Moving FLEX tables around to reconfigure a new layout or just moving out of the way is incredibly easy, especially when one end is fitted with the lockable castor option.

USE IT, MOVE IT, FLEX IT...
