SMARTLINK®
Seating

THE CORRECT ANSWER

Available in a variety of styles, sizes and colors, SmartLink is the smart choice for next generation learning environments.

A Smart addition to any setting

The modern classroom is constantly evolving. Research shows that today's students are learning together, working in groups and interacting with peers. Teachers are even joining in, rather than instructing from their desk or the front of the room. This makes movement a critical aspect of learning. It stimulates thinking, and allows for greater interaction with others. SmartLink seating uses a responsive, contoured design to support the way students move, allowing them to turn around, sit sideways, lean back, and stay comfortable and focused for longer periods of time.

COMFORT THAT IS AHEAD OF THE CURVE

A chair is only as good as the way it supports the person sitting in it. The SmartLink family of chairs support every unique way people move, by using the flexible Learning Curve™ design to encourage a variety of seating positions required for collaboration. The flexibility of SmartLink seating and student desks allow for learning without boundaries, with a lightweight design, smooth glides and casters that make it easy to reconfigure the whole classroom at a moment's notice.

The built-in handle in the seat back makes it easier to move around the room, and the contoured seat back is designed to hold a book bag or purse on the chair back without sliding off.

SmartLink seating was pressure tested against competitive products to ensure maximum comfort for longer periods of time and increased focus.

READY TO STAND UP TO THE TEST

In today's educational environment, you want every investment to provide returns for years, and truly make a difference in learning. SmartLink seating solutions are designed to perfectly accommodate each individual, with versatility built in to work in virtually any setting. From the classroom to the lab, everyone is supported by the intelligent one-piece design of SmartLink seating, which offers greater strength, durability and support. And to maximize your return on investment even more, the HON Full Lifetime Warranty covers the entire SmartLink seating family.

Stack height 53"

Stack width 24" , depth 22"

To store the chairs yet keep them easily accessible, you can safely and securely stack them five high.

Each one-piece seat is constructed from durable polypropylene that is easy to clean and maintain.

MULTIPLY YOUR OPTIONS

Whether you're choosing school colors, stimulating colors for learning, or matching your current interior design, SmartLink can provide exactly what you need. Our seating solutions come in a full spectrum of colors, including vibrant shades that keep students energized and focused.

AN ALL AROUND SOLUTION

The SmartLink seating family was designed to work well with others. It integrates nicely with the entire SmartLink family of products, both aesthetically and functionally. Tailored to fit perfectly with SmartLink desks, they pair up to create a dynamic learning environment. SmartLink modular storage will help keep the classroom in constant motion, and teacher's stations and wall rail systems will keep students' eyes focused where they need to be. Multiple uses from one source. Now that's Smart design.

The SmartLink family of products:

1. Modular Storage
2. Wall Rail System
3. Student Desk
4. Seating
5. Teacher Station

GRADUATE TO THE NEXT LEVEL

Create design continuity and maximize comfort for everyone with SmartLink seating. Accommodating people of all ages and sizes, and adapting to any type of learning environment, it's the chair that's most likely to succeed.
